October 2021

Dear Friends and Neighbors,

The past year and a half has been so difficult for us all. From isolation to trying to find a new “normal,” we have all been impacted and adapted. Our department is no different. The Stratfield Volunteers have weathered this pandemic, serving our fellow citizens in both our professional and volunteer lives throughout this ordeal.

Proudly we can report that in the last year we have been able to recruit several new members and are in the process of replacing outdated personal protective gear. We could not have done so without the support of all of you. If you are able, we ask that you please consider gifting us with a tax-deductible donation so that we can continue to protect our firefighters, and purchase much needed, upgraded equipment.

In addition to financial support, we are always in need of support with your time. Either as an active firefighter member, or a social member to help with managing fundraising, recruitment, and more. You can visit our website and click on membership for details and applications. Life for all of us is busy, and volunteers are harder to come by. If you have an interest in serving the Town of Fairfield, please let us know!

As well, we can be supported by shopping through Amazon Smile (smile.amazon.com) or iGive, and just select us as your charity. We also are a qualified organization for matching contributions by employers that offer such options. Lastly, the second Saturday of each month we accept your redeemable items from 9am to 12pm.

Thank you for your consideration. We appreciate all of your past, as well as your future support!
